THE DEVELOPMENT AND PRINCIPLES OF UK SIGNALLING v1

The railway signalling system used across the majority of the United Kingdom rail network uses line-side signals to control the movement of trains. The current system mostly uses two, three, and four aspect colour light signals using track circuit block signalling. ...

Other signalling sites. As mentioned above, The Home Signal Page is a comprehensive site and by far the best starting point for anyone wishing to gain a better understanding of signalling principles and its history among the British railway companies. The associated Blower email list has now been transformed into the Signal Box Forum, a lively web forum for signalling fans, and there is also a ...
