

ceramic sculpture making faces pdf

Sculpture is the branch of the visual arts that operates in three dimensions. It is one of the plastic arts. Durable sculptural processes originally used carving (the removal of material) and modelling (the addition of material, as clay), in stone, metal, ceramics, wood and other materials but, since Modernism, there has been an almost complete freedom of materials and process.

Sculpture - Wikipedia

In the history of art, prehistoric art is all art produced in preliterate, prehistorical cultures beginning somewhere in very late geological history, and generally continuing until that culture either develops writing or other methods of record-keeping, or makes significant contact with another culture that has, and that makes some record of major historical events.

Prehistoric art - Wikipedia

This course is part of the Product, Ceramic and Industrial Design Programme.. Great reasons to apply: Designing through making allows you to access ideas through a unique material. The deep knowledge of one material helps you to appreciate the opportunities in ceramics but also its translation into other materials
