The structure and function of communication in society

Electronic engineering (also called electronics and communications engineering) is an electrical engineering discipline which utilizes nonlinear and active electrical components (such as semiconductor devices, especially transistors, diodes and integrated circuits) to design electronic circuits, devices, VLSI devices and their systems. The discipline typically also designs passive electrical ...

International Journal of Information and Communication Sciences (IJICS) is a bimonthly open-access, peer-reviewed journal published in English-Language by Science Publishing Group. It publishes manuscripts about the latest outstanding developments in the field of communications engineering. Fast circulation of publication and quality of manuscript are important for both contributors and readers.
