

electronic communication systems by pdf

An electronic communication network (ECN) is a type of computerized forum or network that facilitates the trading of financial products outside traditional stock exchanges. An ECN is generally an electronic system that widely disseminates orders entered by market makers to third parties and permits the orders to be executed against in whole or in part.

Electronic communication network - Wikipedia

An electronic performance support system (EPSS) is any computer software program or component that improves user performance.. EPSSs can help an organization to reduce the cost of training staff while increasing productivity and performance. They can empower employees to perform tasks with a minimum amount of external intervention or training. By using this type of system an employee ...
