Financial Projections & Forecasting Excel Models Templates

Financial modeling is the task of building an abstract representation (a model) of a real world financial situation. This is a mathematical model designed to represent (a simplified version of) the performance of a financial asset or portfolio of a business, project, or any other investment.. Typically, then, financial modeling is understood to mean an exercise in either asset pricing or ...

Excel 2007: Financial Analysis - lynda.com

Hi all, I've been reading around on the website, and all the threads that I have found have been very useful, but it seems that no-one has asked how to create a macro that allows a custom PDF file name from a cell and a customer folder name, from another cell. I'm running Excel 2010 on Windows 7 and have two options for my printing.

Print to PDF Macro using Custom File and Folder Name
