2 Careers in Cartography and GIS is published as a service to the discipline by the Cartography and Geographic Information Society (CaGIS) which is solely responsible for its content. It is an updated version (2008) of brochures by the

### **Cartography and GIS**

A geographic information system (GIS) is a framework for gathering, managing & analyzing data. Rooted in the science of geography, GIS analyzes spatial location and organizes layers of information into visualizations using maps and 3D scenes.

### **What is GIS? | Geographic Information System Mapping**

Wake County Geographic Information Services uses this technology to collect, update, distribute and analyze geographic information that is available through online applications such as iMAPS, PDF Maps and the Data Download Page.

### **Wake County GIS**

Public health is "the science and art of preventing disease, prolonging life and promoting human health through organized efforts and informed choices of society, organizations, public and private, communities and individuals". Analyzing the health of a population and the threats is the basis for public health. The "public" in question can be as small as a handful of people, an entire village ...
