I want to change the color of my hr tag using CSS. The code I've tried below doesn't seem to work: hr { color: #123455; }

html - Changing the color of an hr element - Stack Overflow

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Follow ups. I have captured the files using wget and they are identical.. I have had a look at the request and response headers using fiddler and they make no explicit mention of "Range" in the response header (or Accept-range in the request header), which lessens the likelihood that this is the multi-part request problem as suggested by mwalker.
