Secretary hand is a style of European handwriting developed in the early sixteenth century that remained common in the sixteenth and seventeenth centuries for writing English, German, Welsh and Gaelic.. Predominating before the dominance of Italic script, it arose out of the need for a hand more legible and universally recognizable than the book hand of the High Middle Ages, in order to cope ...

Bookbinding is the process of physically assembling a book of codex format from an ordered stack of paper sheets that are folded together into sections or sometimes left as a stack of individual sheets. The stack is then bound together along one edge by either sewing with thread through the folds or by a layer of flexible adhesive. Alternative methods of binding that are cheaper but less ...

How has printing changed since Gutenberg's invention? Today, printing is very different from the process used in Gutenberg's workshop. By modern standards, Gutenberg's printing process may seem slow and tedious; compositors put type together by hand, and a skilled compositor could assemble 2,000 characters or letters in an hour.
