How Societies Are Born asks a range of important questions about the project of reconstructing Africa's ancient history. Vansina's observation of alternating periods dominated by processes of convergence or divergence provides a new way of thinking about the transitions of Late Stone Age to Early Iron Age to Late Iron Age.

As stars are born, so are societies, and this is a story about such a birth. It tells us how different West Central African societies emerged from the small foraging communities that preceded them and how they then grew to become what they were by 1600. It is a story worth telling for several reasons.

"*How Societies Are Born* is an extremely valuable contribution to western African history and prehistory. I was impressed by the depth and variety of Vansina's historical and anthropological sources, and found his use of historical linguistics to construct arguments about systems of governance, marriage, and inheritance patterns and other details fascinating.
