

### **industrial revolution chapter test pdf**

The Industrial Revolution was the transition to new manufacturing processes in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power, the development of machine tools and the rise of the factory system.

Industrial music is a form of experimental music which emerged in the 1970s. After 1980, industrial splintered into a range of offshoots, sometimes collectively named post-industrial music. [citation needed] This list details some of these offshoots, including fusions with other experimental and electronic music genres as well as rock, folk, and hip hop.
