### **Courses - Department of Chemistry**

An inorganic compound is typically a chemical compound that lacks C-H bonds, that is, a compound that is not an organic compound, but the distinction is not defined or even of particular interest.. Inorganic compounds comprise most of the Earth's crust, although the compositions of the deep mantle remain active areas of investigation.. Some simple compounds that contain carbon are often ...

### **Science Georgia Standards of Excellence Chemistry Standards**

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...
