Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...

Criteria for effective marketing plans. Marketing plans should meet several criteria: The plan must be specific enough so that it can be implemented and communicated to people in the firm. "Improving profitability" is usually too vague, but increasing net profits by 5%, increasing market share by 10%, gaining distribution in 2,000 more stores, and reducing manufacturing costs by 2% are all ...
