Body image is a person's perception of the aesthetics or sexual attractiveness of their own body. It involves how a person sees themselves according to the standards that have been set by society. The Austrian neurologist and psychoanalyst Paul Schilder coined the phrase body-image in his book The Image and Appearance of the Human Body (1935). Human society has at all times placed great value ...

History of the concept. Two British economists are credited with having initiated the formal study of externalities, or "spillover effects": Henry Sidgwick (18381900) is credited with first articulating, and Arthur C. Pigou (18771959) is credited with formalizing the concept of externalities. Definitions. A negative externality is any difference between the private cost of an action or ...
