Advancing Regulatory Science at FDA: A Strategic Plan

Clinical Study Reports (CSRs) are often created as part of the process of submitting applications for new medical treatments to regulators. CSRs answer questions such as: Why was the trial done? What were the important questions asked in the trial? What were the results? CSRs also include extensive details on the course of treatment for patients, the medical information collected from the ...

Science & Technology Report 2017. British American Tobacco's Award Winning 2017/18 Science & Technology Report explores the evolution of tobacco science and highlights our world class alternatives to smoking.

BAT Science - BAT Science

Clinical research is a branch of healthcare science that determines the safety and effectiveness of medications, devices, diagnostic products and treatment regimens intended for human use. These may be used for prevention, treatment, diagnosis or for relieving symptoms of a disease. Clinical research is different from clinical practice.

Clinical research - Wikipedia

The Master's Degree Program in Clinical Research is a two academic year course of study (19 calendar months; 7 academic quarters) intended for scholars who desire rigorous training in the methods and conduct of clinical research, which is defined broadly as any health-related research where individual human beings or groups of human beings are the unit of observation.
