the shyness and social pdf
Shyness (also called diffidence) is the feeling of apprehension, lack of comfort, or awkwardness especially when a person is around other people. This commonly occurs in new situations or with unfamiliar people. Shyness can be a characteristic of people who have low self-esteem.Stronger forms of shyness are usually referred to as social anxiety or social phobia.

Shyness - Wikipedia
This brochure discusses symptoms, causes, and treatments for social anxiety disorder (also called social phobia), a type of anxiety disorder associated with intense, persistent fear of being watched and judged by others.

1. Introduction. The popularity of the social networking site Facebook is unprecedented: It is currently the second most frequently visited website on the Internet (Alexa Internet Inc., 2011) and attracts a global audience of over 606 million people (Gonzalez, 2011).Enthusiasm for Facebook is particularly apparent in Australia, as close to half of the population are reported to be active users ...

Who uses Facebook? An investigation into the relationship
Social Anxiety is an anxiety disorder where we believe that others will judge us negatively ("th ey'll think I'm an idiot" etc), and it is therefore experienced most acutely in situations when we are with other people. Our attention is very self-focussed - on what we must look like to others, what they might be thinking of us, trying to interpret every glance or other unspoken gesture or ...

While gifted students look perfect on paper, their teachers know that in the classroom they are not all the academic angels and stellar scholars that people assume they are. Successful teachers of the gifted require a special understanding of their studentsâ€™ social and emotional needs. Hereâ€™s a ...
